

Social Distancing Signs, One-way System & Floor Markings

Social Distancing Posters, Notices & Floor Markings

Handwashing & Respiratory Hygiene

There are general principles you can follow to help prevent the spread of respiratory viruses, including:

- Washing your hands more often - with soap and water for at least 20 seconds or use a hand sanitiser when you get home or into work, when you blow your nose, sneeze or cough, eat or handle food.
- Avoid touching your eyes, nose, and mouth with unwashed hands.
- Avoid close contact with anyone especially those with symptoms
- Cover your cough or sneeze with a tissue, then throw the tissue in a bin and wash your hands.
- Clean and disinfect frequently touched objects and surfaces.

HELP STOP THE SPREAD OF VIRUSES

- CATCH IT**
Germs spread easily. Always carry tissues and use them to catch your cough or sneeze.
- BIN IT**
Germs can live for several hours on tissues. Dispose of your tissue as soon as possible.
- KILL IT**
Hands can transfer germs to every surface you touch. Clean your hands as soon as possible.
