

Identifikationsskilte til brandslukkere

I forbindelse med en risikovurdering af en bygning er det væsentligt at identificere ikke blot placeringen men også den type brandslukker, der er påkrævet. Et identifikationsskilt, som er korrekt placeret ved en brandslukker, fungerer som en konstant påmindelse om, hvad det er for en slags brandslukker, og hvilke typer af brande, den kan bruges på. JALITE AAA skilte vedrørende placering og identificering af ildslukningsmateriel inkluderer grafiske symboler for brandklasser fra BS EN3-5: 1996.

Skilte vedrørende identifikation og placering af ildslukningsmateriel

Kommunikation er et altafgørende punkt i enhver risikovurdering, og en bygnings brugere skal være bekendt med placeringen af ildslukningsmateriel og brandalarmer. Et skilt, der er passende placeret vil fungere som en konstant påmindelse herom.
